

Preliminary Program

47th Annual USC Weil Symposium on CRITICAL CARE AND EMERGENCY MEDICINE

Sunday, May 17-Thursday, May 21, 2009

NEW DATE! Westin Mission Hills
NEW LOCATION! Rancho Mirage,
California

Presented by
Office of Continuing Medical Education
Keck School of Medicine
of the University of Southern California
and
The Weil Institute of Critical Care Medicine®

Directed by
Max Harry Weil, M.D., Ph.D.

NEEDS ASSESSMENT AND COURSE DESCRIPTION

Course Description: The 47th Annual USC Weil Symposium on Critical Care and Emergency Medicine will address challenges faced by healthcare professionals who care for critically ill and injured patients, including critical care specialists, emergency physicians, hospitalists, internists, cardiologists, pulmonologists, anesthesiologists, nephrologists, traumatologists, general surgeons, and primary care providers who care for critically ill patients. The program provides an ideal mix of traditional standard-of-care principles based on established guidelines with cutting-edge, forward-moving practices. Didactic lectures on current **management** are featured in the Plenary Session. The "Update 2009" series of lectures highlights the most important advances, and breakout sessions offer more specific focus, including popular case presentations. Practical skills are taught in either full-day or half-day hands-on workshops, which will bridge the gap between journals/textbooks and the bedside by providing didactic presentations along with hands-on experience. Program topics have been selected based on extensive critical care and emergency medicine needs assessment data including past participant surveys, clinical expert input, practice guidelines, and data from national data sources and associations.

This conference was the first and continues as the oldest course on Critical Care Medicine. It has been expanded and has been relocated from Las Vegas to the home community of the Weil Institute in the beautiful Palm Springs, California area. The program offers the opportunity to fill important gaps in knowledge in the multi-specialty and broad-based areas of critical care and emergency medicine, help to drive new guidelines into practice, and result in changes throughout the continuum of patient care. With collaboration of the World Federation and other international intensive and critical care societies, we also welcome registrants from Europe, South America and the Pacific Rim. Submission of abstracts is invited for possible publication and presentation at optional oral and poster sessions; see details at <http://www.weiliccm.org/symposium/index.html>

Needs Assessment: Critical care medicine is a multi-specialty approach to healthcare for patients with acute, life-threatening illness or injury. Most individuals (nearly 80%) will directly or indirectly experience a critical illness or injury.¹ As much as 10% of expenditures on health care are estimated to be spent on critically ill patients.² More than five million patients are admitted annually to ICUs in the United States, most for postoperative management or with diagnoses of respiratory insufficiency/failure, ischemic heart disorder, heart failure, and sepsis.³ Because the care of critically ill patients, including patients in emergency departments, is rapidly evolving with the advances of science and technology, what is initiated at the bench is often not implemented at the bedside. The demand for emergency department services has escalated by 20% in recent years.⁴ Because the broad-based specialty of Emergency Medicine is influenced by developments in many fields, keeping up with current developments is nearly impossible.⁵

We gratefully acknowledge support for the program from (partial list)

Novo Nordisk, Inc., and Zoll Medical

OBJECTIVES

At the conclusion of the program, the participant who has attended appropriate sessions should be able to:

- Implement new criteria for diagnosis and management of pulmonary embolism, acute respiratory failure and the prevention of ventilator induced lung injury, explain options for non-invasive and less invasive ventilation, including the laryngeal mask airway, and alternatives to mechanical ventilation.
- Identify and manage acute cardiovascular crises, including acute coronary syndromes, heart failure, major rhythm disturbances, and pericardial disease; distinguish between primary cardiac and primary asphyxial cardiac arrest in accord with new guidelines, including options for defibrillation, hypothermia, management of post resuscitation myocardial dysfunction, and ischemic brain damage; discuss the current role of hemodynamic monitoring, including central catheters and the newly recognized role of microcirculatory imaging for diagnosis and management of circulatory shock; perform differential diagnosis and optimize management of both hemorrhagic and thrombotic strokes.
- Discuss diagnosis and treatment of sepsis, septic shock, toxic shock, and multiorgan failure, including fluid resuscitation and indications for early medical and surgical treatment; identify antimicrobial therapy for life-threatening infections and discuss limitations of diverse resuscitative fluids and vasopressor agents; describe diagnosis and management of both community- and hospital-acquired pneumonias and life-threatening exacerbations of obstructive airway diseases; describe the epidemiology and management of antibiotic resistance, including MRSA and *Clostridium difficile*; recognize emerging and re-emerging communicable diseases, including tuberculosis and avian influenza; implement guidelines for use of prophylactic antibiotics together with management of immunocompromised patients and hospital infection control.
- Describe current guidelines for diagnosis and management of acute renal failure and options for renal replacement therapy; discuss management of liver failure, electrolyte and acid base emergencies; identify hyper- and hypoglycemia, ketoacidosis and hyper- and hypo-osmolal states; evaluate gastrointestinal crises, including pancreatitis and the hepato-renal syndrome; define indications and methods of percutaneous gastrostomies and guidelines for enteral nutrition.
- Identify intoxications with diverse poisons and street drugs; discuss the initial management of wounds, describe the initial management of the severely burn-injured patient; define current indications for blood transfusions and their alternatives; apply new concepts of hemostasis, including the role of Factor VII; discuss goal-directed resuscitation; describe current initial management of seizures, syncope, and head injuries.
- Identify and treat anxiety and manage post-operative pain; adopt protocols for analgesia and sedation based on increasingly objective criteria.
- Recognize the risks of dementia, especially in the elderly critically ill; integrate guidelines for care of the elderly and priorities of end-of-life care.
- Integrate human values and ethical priorities during lifesaving interventions; recognize potentially life-threatening errors at the bedside and list options for their prevention, including quality and safety initiatives, especially asepsis, and device options for minimizing complications during and after insertion of catheters and tubes; implement clinical information systems pertinent to acute care; discuss malpractice cases pertinent to life saving interventions.
- Formulate a plan for the care of the morbidly obese patient; discuss the role of ultrasound for both imaging the heart, chest and abdominal organs and for placement of central catheters at the bedside; illustrate mechanisms and management of urinary tract obstruction.

PRE-COURSE

SUNDAY, MAY 17, 2009

7:45 a.m. - 5:00 p.m.

**Choose full day ACLS course OR any two half-day workshops.
ALL workshops have limited space; early registration is advised.
Workshops offer up to 8 AMA PRA Category 1 credits.**

Full Day ACLS Provider Course or 1½ day ACLS Instructor Course

Max Harry Weil, M.D., Ph.D., Mike Jacobs, EMT-P, Wanchun Tang, M.D., William Browne, M.D., Mike Potter, EMT-P, and Giuseppe Ristagno, M.D.

This problem-oriented, sophisticated Provider Course is for Professional Medical Providers who direct resuscitation teams in and out of hospitals. On the preceding day, Saturday, May 16th, up to 12 qualified candidates may enroll for the Instructor Course option (1:00-7:00 p.m.). These candidates will student-teach at the Provider Course on Sunday. Details will be provided upon registration.

OR

Half-Day Workshops on Practical Methods and Techniques

Each workshop begins at 7:45 a.m. and continues until 11:45 a.m., and is repeated between 1:00 p.m. and 5:00 p.m. Attendees may choose any two of the scheduled workshops; one in the morning and the second in the afternoon.

1. **Airway Management and Mechanical Ventilation with Emphasis on Non-invasive Ventilation**
Robert M. Kacmarek, Ph.D., and Edgar J. Jimenez, M.D.
Didactic presentations followed by hands-on practice with airway devices and current models of ventilators for non-invasive ventilation.
2. **Techniques of Renal Replacement Therapy**
Kevin K. Chung, M.D.
Continuous renal replacement methods will be reviewed and techniques demonstrated, including devices and supplies for optimal ultrafiltration, hemofiltration, hemodialysis, hemodiafiltration, plasma exchange and regional anticoagulation.
3. **Percutaneous Gastrostomy, Thoracostomy for Drain Insertion, and Percutaneous Tracheostomy**
D. J. Green, M.D., Kenji Inaba, M.D., and David S. Plurad, M.D.
An interactive workshop with didactic lectures and demonstrations, and hands-on experience with these interventions.
4. **Critical Care Ultrasound**
Philip D. Lumb, M.B.
This workshop demonstrates methods of central venous and arterial catheterization, cardiac evaluation and volume responsiveness, and additional critical care procedures guided by ultrasound methods with the performance of ultrasound guided regional nerve blocks for pain relief.

**Pre-Courses must be taken in conjunction with the 4-day symposium.
Mark the appropriate choices on the registration form on page 23.**

MONDAY, MAY 18, 2009

7:45 - 10:00 a.m.

Time Period 1

PLENARY SESSION

Presiding: Allan V. Abbott, M.D., and Max Harry Weil, M.D., Ph.D.

CELEBRITY BALLROOM

7:45 - 8:00 **INTRODUCTION**

Allan V. Abbott, M.D., and Max Harry Weil, M.D., Ph.D.

8:00 - 8:30 **HERBERT SHUBIN MEMORIAL LECTURES**

Predictors of Outcomes in the Critically Ill

Jean-Louis Vincent, M.D., Ph.D.

8:30 - 9:00 **The New Plague: *Clostridium difficile***

Dennis G. Maki, M.D.

9:00 - 9:30 **Weaning from Mechanical Ventilation**

Robert M. Kacmarek, Ph.D.

9:30 - 10:00 †† **Critical Care in the Elderly: Continuity of Intensive Care from Hospital to Home**

Eric C. Rackow, M.D.

10:00 - 10:30 a.m. COFFEE BREAK - EXHIBIT HALL

10:30 - 11:20 a.m.

Time Period 2

MINI-COURSES

CELEBRITY A - UPDATE 2009

Evidence-based Prevention and Management of Line Sepsis

Dennis G. Maki, M.D.

CELEBRITY E

Ventilation and Ventilator Modes for ARDS: What Do We Really Need in a Ventilator?

Robert M. Kacmarek, Ph.D.

AMBASSADOR 4

Carotid Endarterectomy vs Carotid Stenting – What Do the Data Tell Us?

Mark J. Alberts, M.D.

AMBASSADOR 5

Management of the Severely Obese Critically Ill Patient

William T. Browne, M.D.

CELEBRITY F

Polyneuropathy of the Critically Ill

Edgar J. Jimenez, M.D.

MONDAY, MAY 18, 2009

11:25 a.m. - 12:15 p.m.

Time Period 3

MINI-COURSES

CELEBRITY A - UPDATE 2009

Evaluation of Dysphagia in the Critically Ill

Mark J. Alberts, M.D.

CELEBRITY E

The OR-ICU Interface: Safe Transfers for Improved Patient Care

Philip D. Lumb, M.B.

AMBASSADOR 4

Management of the Hepatorenal Syndrome

Jose Besso, M.D.

AMBASSADOR 5

Nutrition: Prescriptions for Parenteral and Enteral Nutrition

Edgar J. Jimenez, M.D.

CELEBRITY F - CASE STUDY

Case Studies on Acid Base Disorders

William T. Browne, M.D.

12:15 - 1:30 p.m. LUNCH BREAK

1:30 - 2:20 p.m.

Time Period 4

MINI-COURSES

CELEBRITY A - UPDATE 2009

Revisiting Routines of Cardiorespiratory and Metabolic Patient Monitoring

Jean-Louis Vincent, M.D., Ph.D.

CELEBRITY E

Rational Anti-infective Therapy for Life-threatening Infection

Dennis G. Maki, M.D.

AMBASSADOR 4

Burn-associated Injuries to the Airway and ARDS

Kevin Chung, M.D.

AMBASSADOR 5 - CASE STUDY

Case Studies on Liver Failure

William T. Browne, M.D.

CELEBRITY F

Academic Session

Presentation of accepted abstracts

MONDAY, MAY 18, 2009

2:25 - 3:15 p.m.

Time Period 5

MINI-COURSES

CELEBRITY A - UPDATE 2009

Prevention of Healthcare-related Pneumonia

Dennis G. Maki, M.D.

CELEBRITY E

New Data on Clopidogrel vs Aspirin and Extended Release Dipyridamole for Secondary Stroke Prevention

Mark J. Alberts, M.D.

AMBASSADOR 4

Minimizing Complications of the Insertion and Use of Central Lines

Philip D. Lumb, M.B.

AMBASSADOR 5

The Clinical Uses of Capnography

Giuseppe Ristagno, M.D.

CELEBRITY F

Academic Session

Presentation of accepted abstracts

3:15 - 3:45 p.m. COFFEE BREAK - EXHIBIT HALL

3:45 - 5:15 p.m.

Time Period 6

PLENARY SESSION

Presiding: William T. Browne, M.D.

CELEBRITY BALLROOM

3:45 - 4:15 **Control of Antimicrobial Resistance**

Dennis G. Maki, M.D.

4:15 - 4:45 **Anticipated Major Changes in the 2010 AHA Guidelines for CPR**

Wanchun Tang, M.D.

4:45 - 5:15 **ARDS: Recent Advances**

Edgar J. Jimenez, M.D.

TUESDAY, MAY 19, 2009

8:00 - 10:00 a.m.

Time Period 7

PLENARY SESSION

Presiding: Eric C. Rackow, M.D.

CELEBRITY BALLROOM

MAX HARRY WEIL INTERNATIONAL LECTURES

8:00 - 8:30 ETHICS AND PRACTICE

† **Forgoing Life Support: The European Perspective**

Jean-Louis Vincent, M.D., Ph.D.

8:30 - 9:00 ETHICS AND PRACTICE

† **Limiting Duration Rather Than Withdrawing Mechanical Ventilation in the Terminally Ill: The Israeli Experience**

Charles L. Sprung, M.D.

9:00 - 9:30 **Sunsetting Prehospital Endotracheal Intubation**

Ian G. Stiell, M.D.

9:30 - 10:00 **Diagnosis and Treatment of Pulmonary Embolism**

Jose Besso, M.D.

10:00 - 10:30 a.m. COFFEE BREAK - EXHIBIT HALL

10:30 - 11:20 a.m.

Time Period 8

MINI-COURSES

CELEBRITY A - UPDATE 2009

The Threat of Multi-drug Resistant Tuberculosis

Dennis G. Maki, M.D.

CELEBRITY E

Anemia and Blood Transfusion

Jean-Louis Vincent, M.D., Ph.D.

AMBASSADOR 4

The Role of Hypothermia in the Management of CPR

Wanchun Tang, M.D.

AMBASSADOR 5

Acute Pulmonary Edema

Jay L. Falk, M.D.

CELEBRITY F - CASE STUDY

Case Studies on Management of COPD

Edgar J. Jimenez, M.D.

TUESDAY, MAY 19, 2009

11:25 a.m. - 12:15 p.m.

Time Period 9

MINI-COURSES

CELEBRITY A - UPDATE 2009

Volume Repletion and Fluid Challenge

Jean-Louis Vincent, M.D., Ph.D.

CELEBRITY E

Pitfalls in the ECG Diagnosis of Myocardial Infarction

Nora F. Goldschlager, M.D.

AMBASSADOR 4

Priorities in the Management of Head Trauma

Jose Besso, M.D.

AMBASSADOR 5

Update on Intoxication Caused by Abuse of Drugs

Janice L. Zimmerman, M.D.

CELEBRITY F

Meet the Professor: Organization of Emergency Departments

Ian G. Stiell, M.D.

12:15 - 1:30 p.m. LUNCH BREAK

1:30 - 2:20 p.m.

Time Period 10

MINI-COURSES

CELEBRITY A - UPDATE 2009

Severe Heart Failure

Joseph E. Parrillo, M.D.

CELEBRITY E

Management of Electrolyte Emergencies

William T. Browne, M.D.

AMBASSADOR 4

Non-invasive Ventilation for Acute Respiratory Failure

Janice L. Zimmerman, M.D.

AMBASSADOR 5

Acute Pancreatitis

Jose Besso, M.D.

CELEBRITY F - CASE STUDY

Case Studies on Malpractice: I

Jay L. Falk, M.D.

TUESDAY, MAY 19, 2009

2:25 - 3:15 p.m.

Time Period 11

MINI-COURSES

CELEBRITY A - UPDATE 2009

Syncope

Nora F. Goldschlager, M.D.

CELEBRITY E

Mechanisms of Circulatory Shock with Special Reference to the Microcirculation

Jean-Louis Vincent, M.D., Ph.D.

AMBASSADOR 4

Immediate Management of Acute Renal Failure

Kevin K. Chung, M.D.

AMBASSADOR 5

Aggressive Emergency Department Management of Atrial Fibrillation: The Ottawa Protocol

Ian G. Stiell, M.D.

2:50 -3:20 **“Decision Assist” - Algorithms to Facilitate Triage of Traumatically Injured Patients**

John B. Holcomb, M.D.

3:20 - 3:50 **Organizing and Instituting Programs for Management of Sepsis**

Emanuel P. Rivers, M.D., MPH

3:50 p.m. Adjourn

ETHICS AND PRACTICE - Sessions comply with the requirements of some medical licensing authorities for one or more hours of medical ethics each year.

Pain and End-of-life Care - Sessions comply and are marked with a †.

Geriatric Critical Care - Sessions comply and are marked with a ††.

FACULTY

Course Organizing Committee

Max Harry Weil, M.D., Ph.D.

Distinguished University Professor
Weil Institute of Critical Care Medicine
Rancho Mirage, California
Adjunct Professor of Medicine, Northwestern University Medical School
Chicago, Illinois
Research Professor of Surgery and
Emeritus Professor of Clinical Anesthesiology
Keck School of Medicine of the University of Southern California
Los Angeles, California

Allan V. Abbott, M.D.

Professor of Family Medicine
Associate Dean for Curriculum and Continuing Medical Education
Keck School of Medicine of the University of Southern California
Los Angeles, California

William T. Browne, M.D.

Associate Professor of Medicine
Internal Medicine Residency Program Director
University of Minnesota Medical School
Minneapolis, Minnesota

Jay L. Falk, M.D.

Clinical Professor of Medicine and Emergency Medicine
University of Florida College of Medicine
Academic Chairman, Department of Emergency Medicine
Chief Academic Medical Officer
Orlando Regional Healthcare System
Orlando, Florida

Eric C. Rackow, M.D.

Professor of Medicine
New York University Medical Center
New York, New York

Wanchun Tang, M.D.

Professor, President, and Chief Scientific Officer
Weil Institute of Critical Care Medicine
Rancho Mirage, California
Clinical Professor of Anesthesiology
Keck School of Medicine of the University of Southern California
Los Angeles, California

Guest Faculty

Mark J. Alberts, M.D.

Professor of Neurology
Director, Stroke Program
Feingold School of Medicine
Northwestern University
Chicago, Illinois

José Besso, M.D.

Department of Intensive Care
Hospital Centro Medico de Caracas
Caracas, Venezuela
*President, World Federation of Societies of Intensive
and Critical Care Medicine*

Kevin K. Chung, M.D.

Medical Intensivist, Burn Center
US Army Institute of Surgical Research
San Antonio, Texas

Susan E. Dantoni, M.D.

Clinical Assistant Professor of Obstetrics and Gynecology
University of Rochester School of Medicine
Rochester, New York
Fingerlakes Women's Health, PLLC
Pittsford, New York

Nora F. Goldschlager, M.D.

Professor of Clinical Medicine
University of California, San Francisco School of Medicine
San Francisco, California

John B. Holcomb, M.D.

Professor of Surgery
Chief, Division of Acute Care Surgery
Director, Center for Translational Injury Research
University of Texas Medical School at Houston
Houston, Texas

Michael Jacobs, EMT-P

Prehospital Care Coordinator
Emergency Medical Services, Public Health Department
Health Care Services Agency
Alameda County, California

Edgar J. Jimenez, M.D.

Clinical Associate Professor of Medicine
University of Florida and Florida State University
Director, Medical Intensive Care Unit
Orlando Regional Medical Center
Orlando, Florida

Robert M. Kacmarek, Ph.D.

Professor of Anesthesia
Harvard Medical School
Boston, Massachusetts

Mitchell M. Levy, M.D.

Professor of Medicine
Warren Alpert Medical School of Brown University
Director, Medical Intensive Care Unit
Brown University, Rhode Island Hospital
Providence, Rhode Island
President-elect, Society of Critical Care Medicine

Dennis G. Maki, M.D.

Ovid O. Meyer Professor of Medicine
Head, Section of Infectious Diseases
Attending Physician, Center for Trauma and Life Support
University of Wisconsin School of Medicine
Madison, Wisconsin

Peter J. Papadakos, M.D.

Professor of Anesthesiology, Surgery, and Neurosurgery
Director, Division of Critical Care Medicine
University of Rochester School of Medicine
Rochester, New York

Joseph E. Parrillo, M.D.

Professor of Medicine
Robert Wood Johnson Medical School
University of Medicine and Dentistry of New Jersey
Chief of Medicine
Director of the Cooper Heart Institute
Camden, New Jersey

Michael Potter, EMT-P

Director of Community Education Programs
Weil Institute of Critical Care Medicine
Rancho Mirage, California

Giuseppe Ristagno, MD

Assistant Professor
Weil Institute of Critical Care Medicine
Rancho Mirage, California

Emanuel P. Rivers, M.D., MPH

Vice Chairman and Director of Research
Department of Emergency Medicine
Henry Ford Hospital
Detroit, Michigan

Kandis K. Rivers, M.D.

Urologist
Henry Ford Hospital
Detroit, Michigan

Charles L. Sprung, M.D.

Professor of Medicine
The Hebrew University of Jerusalem
Director, General Intensive Care Unit
Department of Anesthesiology and Critical Care Medicine
Hadassah Hebrew University Medical Center
Jerusalem, Israel

Ian G. Stiell, M.D.

Professor and Chair
Department of Emergency Medicine
University of Ottawa
Ottawa, Ontario, Canada
